DRUPAL 10 WAS ORIGINALLY TARGETED FOR JUNE 2022 ...

We are here

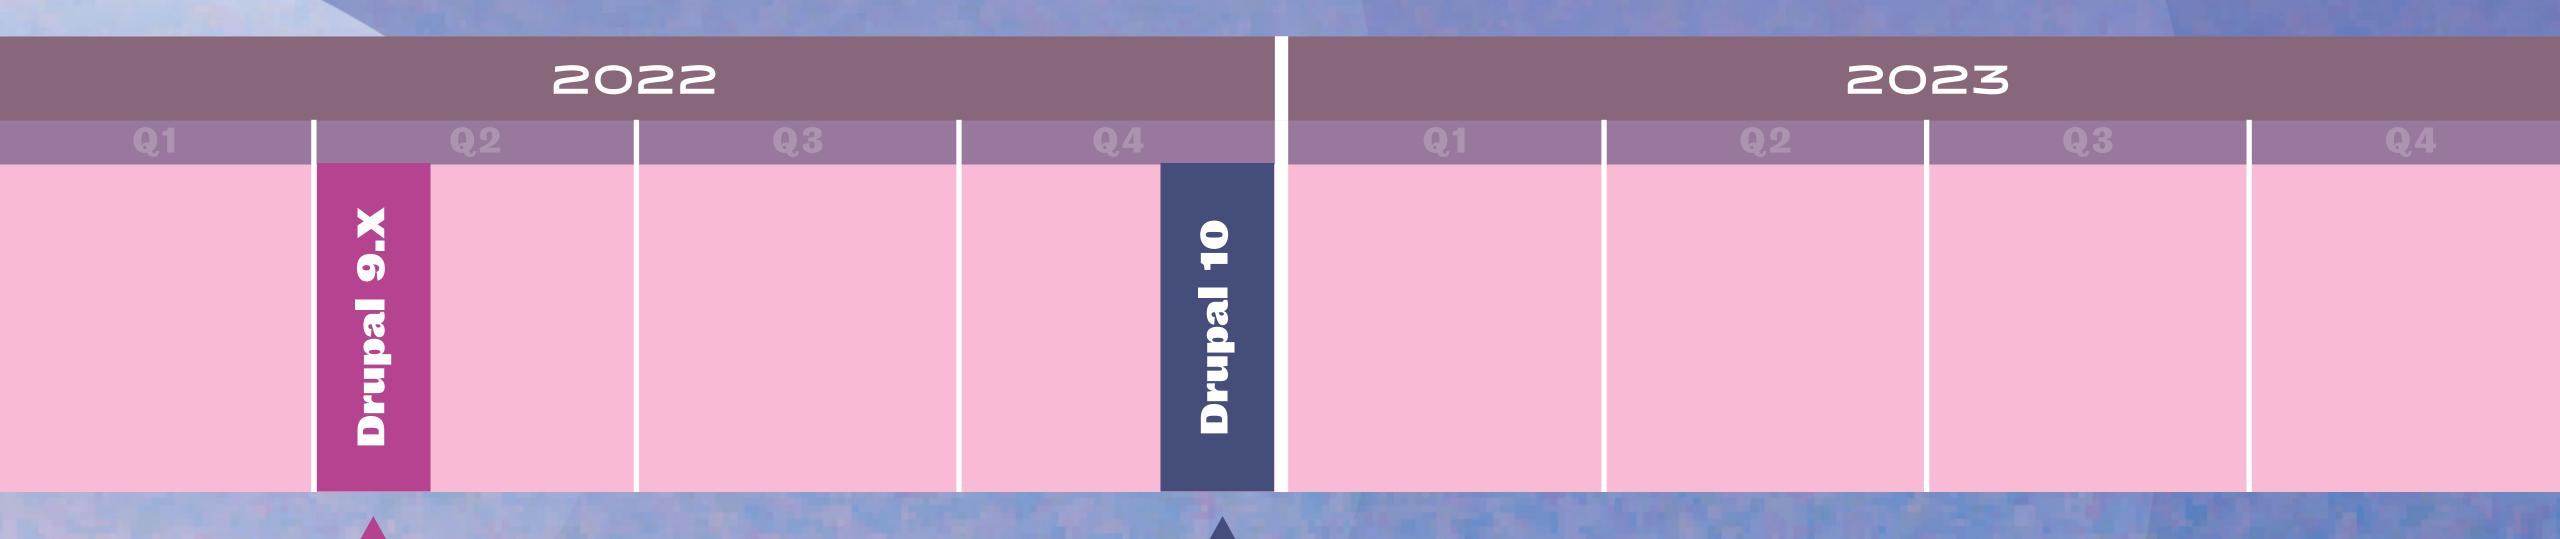

WE PUSHED BACK DRUPAL 10 TO DECEMBER 2022

We are here

Why?More CKeditor5 work is required

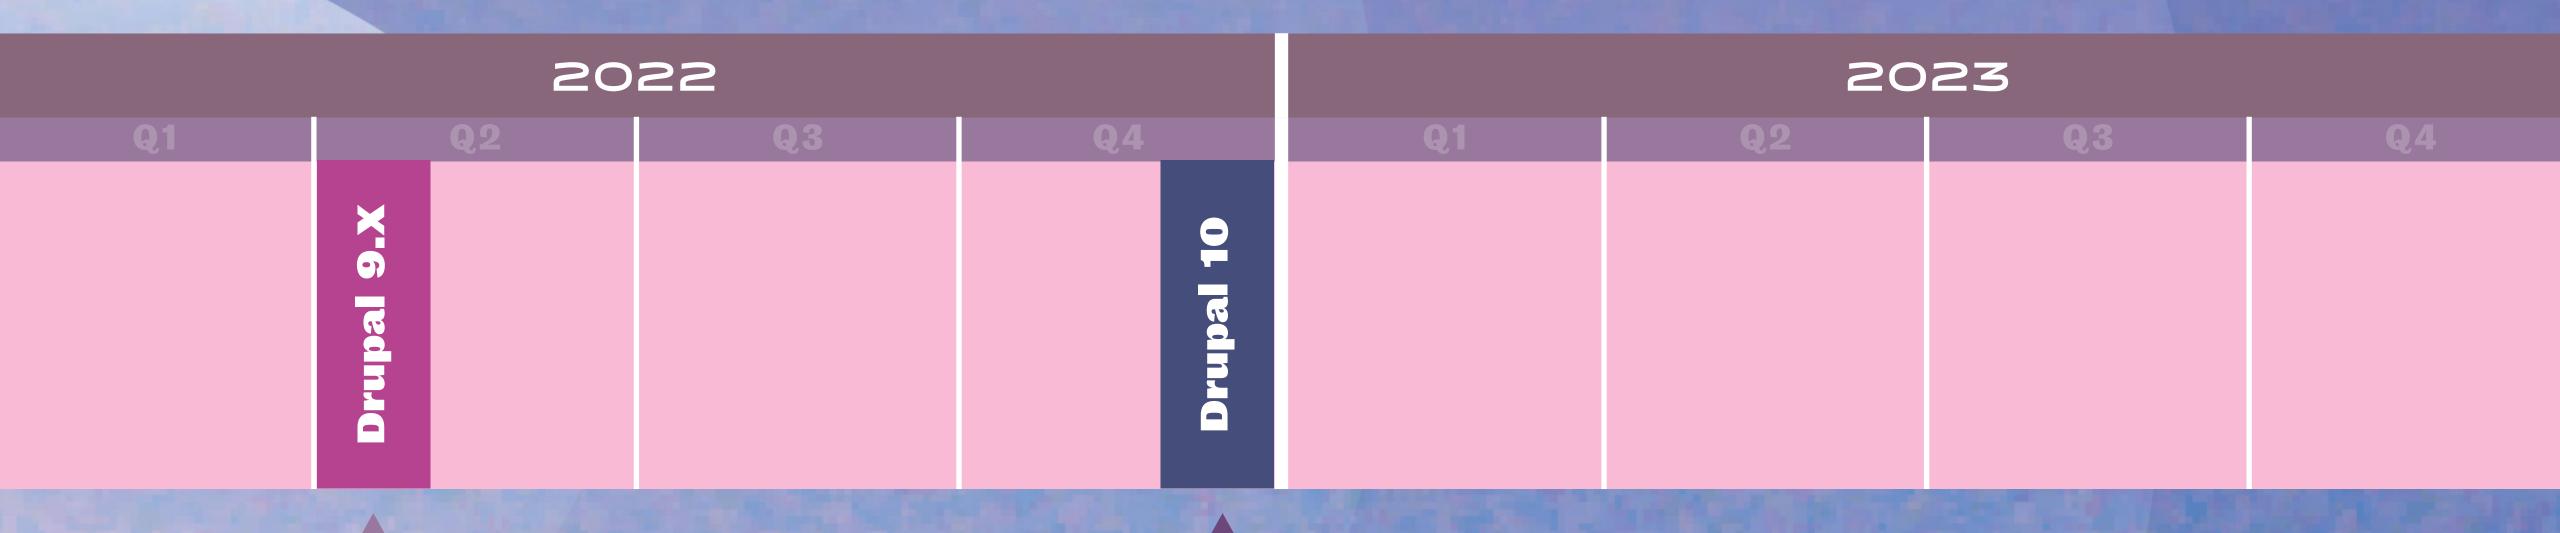

DRUPAL 10 WILL SHIP WITH SYMFONY 6.2

Using Symfony 4

Using Symfony 6.2

DRUPAL 10 WILL REQUIRE PHP 8.1

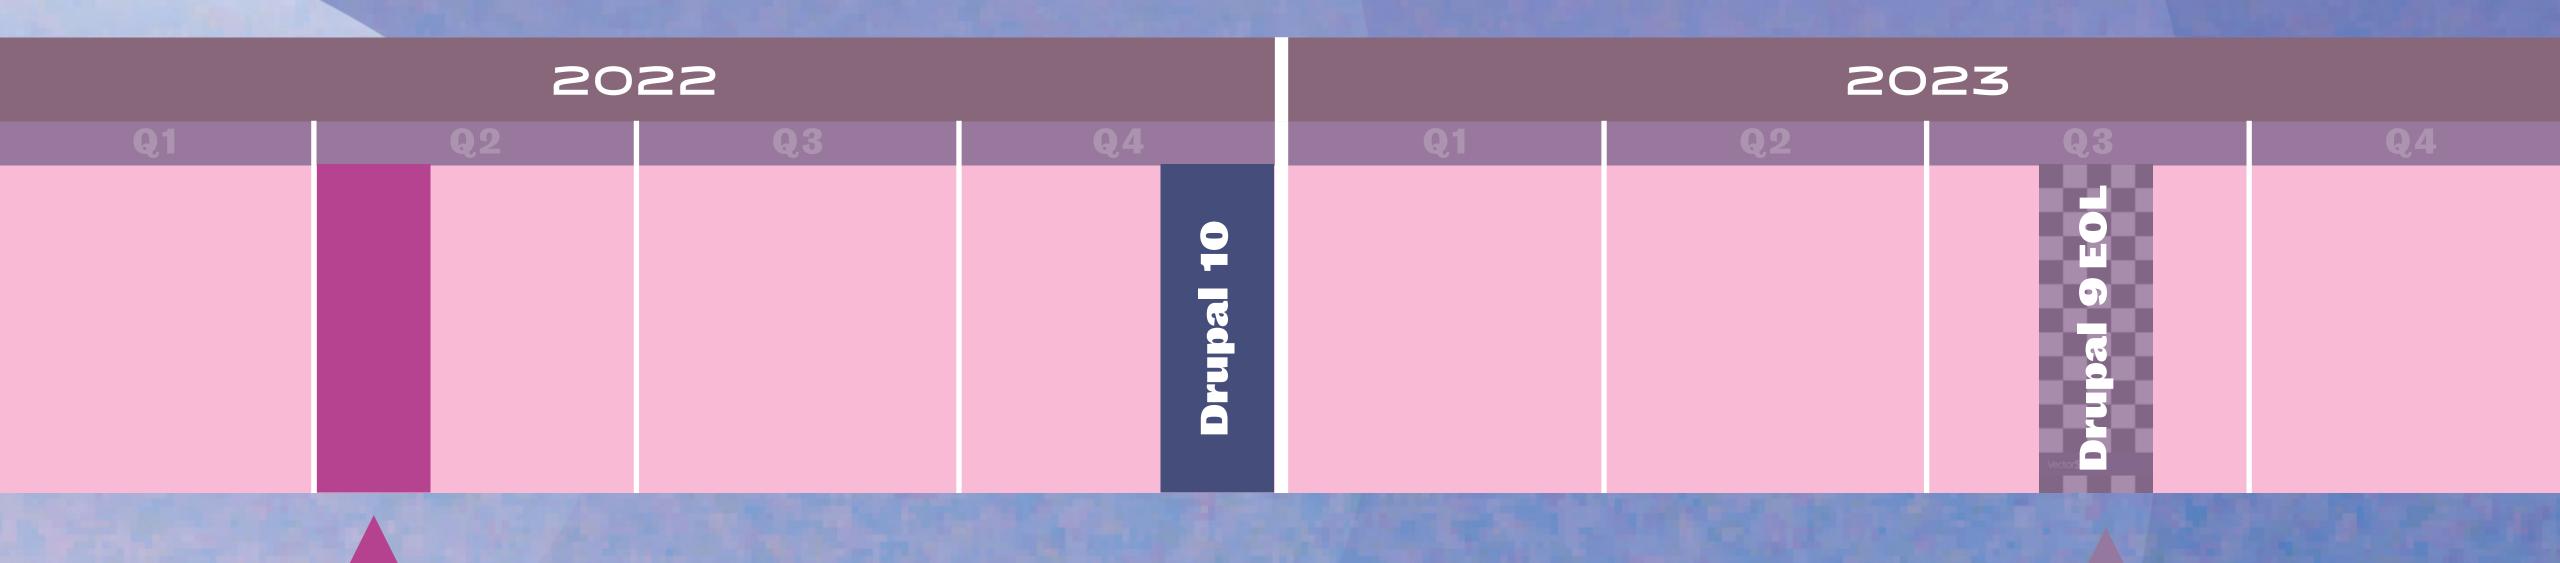

Requires PHP 7.4

Requires PHP 8.1

WE WILL RELEASE DRUPAL 9.4 RELEASE IN JUNE

DRUPAL 9 WILL BE END-OF-LIFE IN NOVEMBER 2023

We are here

Drupal 9 sites will have **11 months to upgrade** after Drupal 10 is released; it will be the easiest upgrade in Drupal's history

WHAT TO EXPECTIN DRUPAL 10

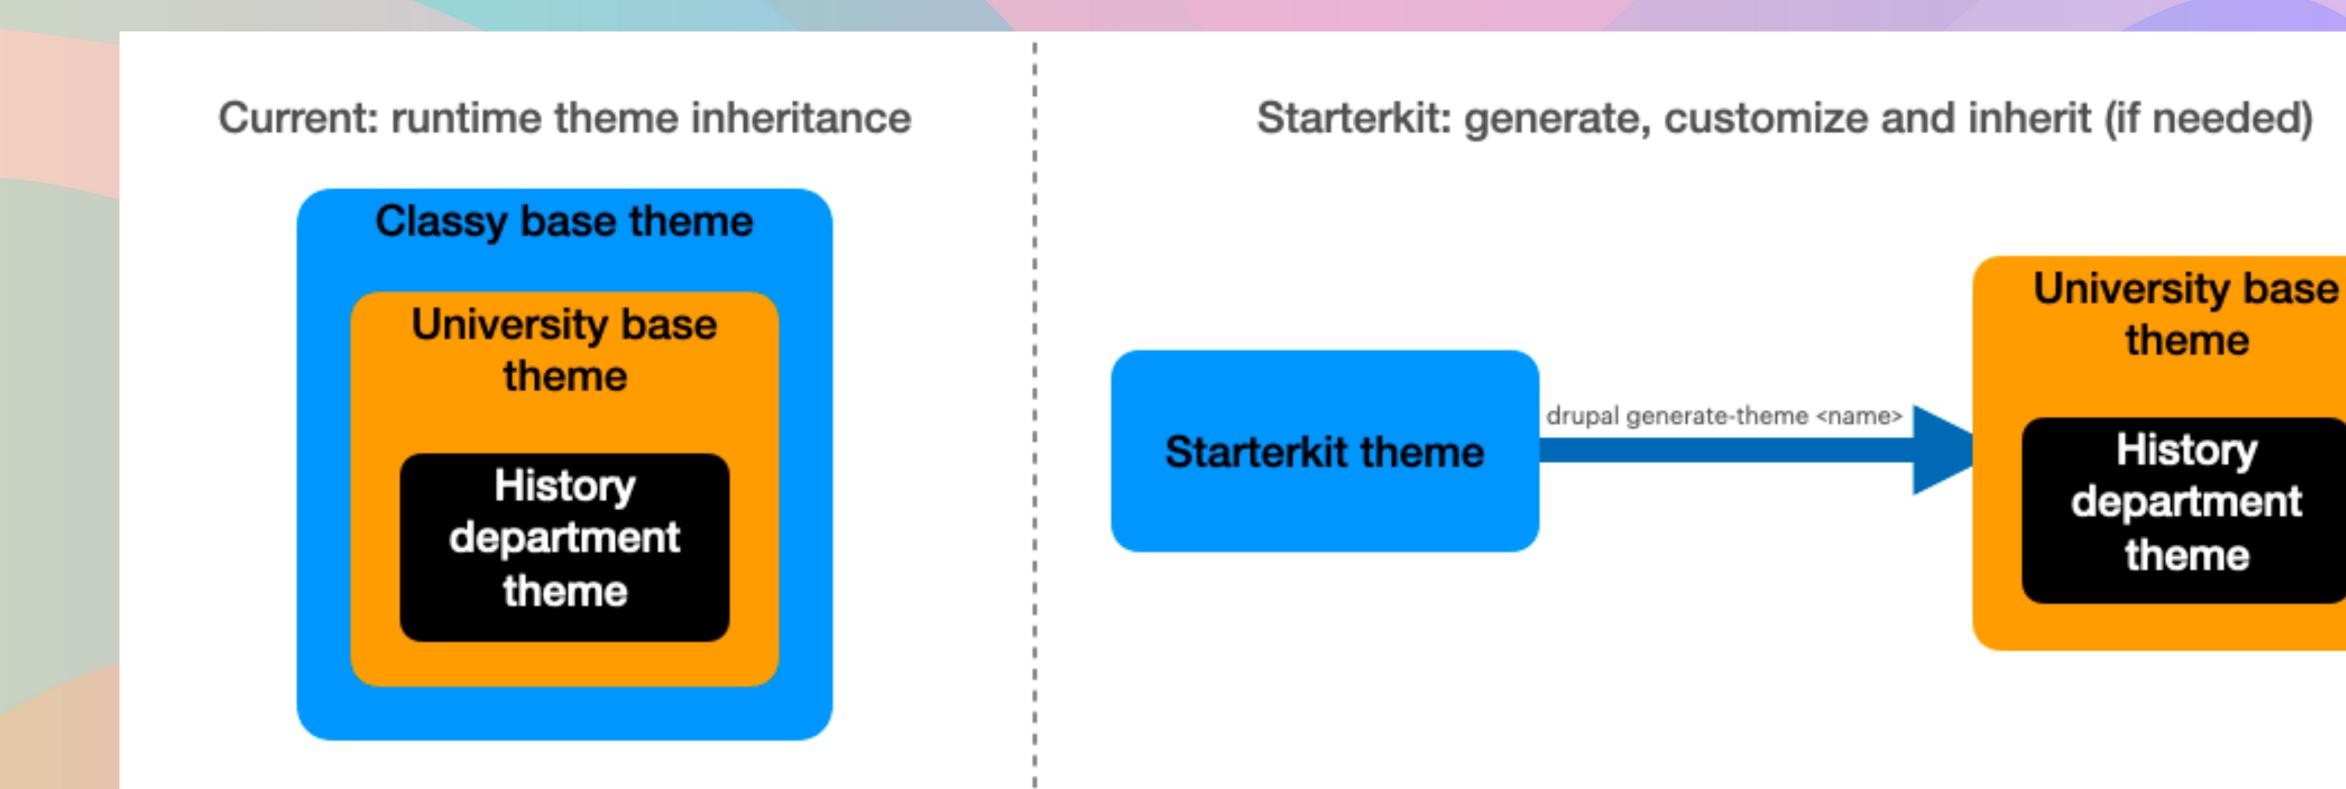

ON TRACK FOR DRUPAL 10

Claro (Drupal's new backend theme) is both stable and the new default as of yesterday

Next? Move Seven out of core

ON TRACK FOR DRUPAL 10

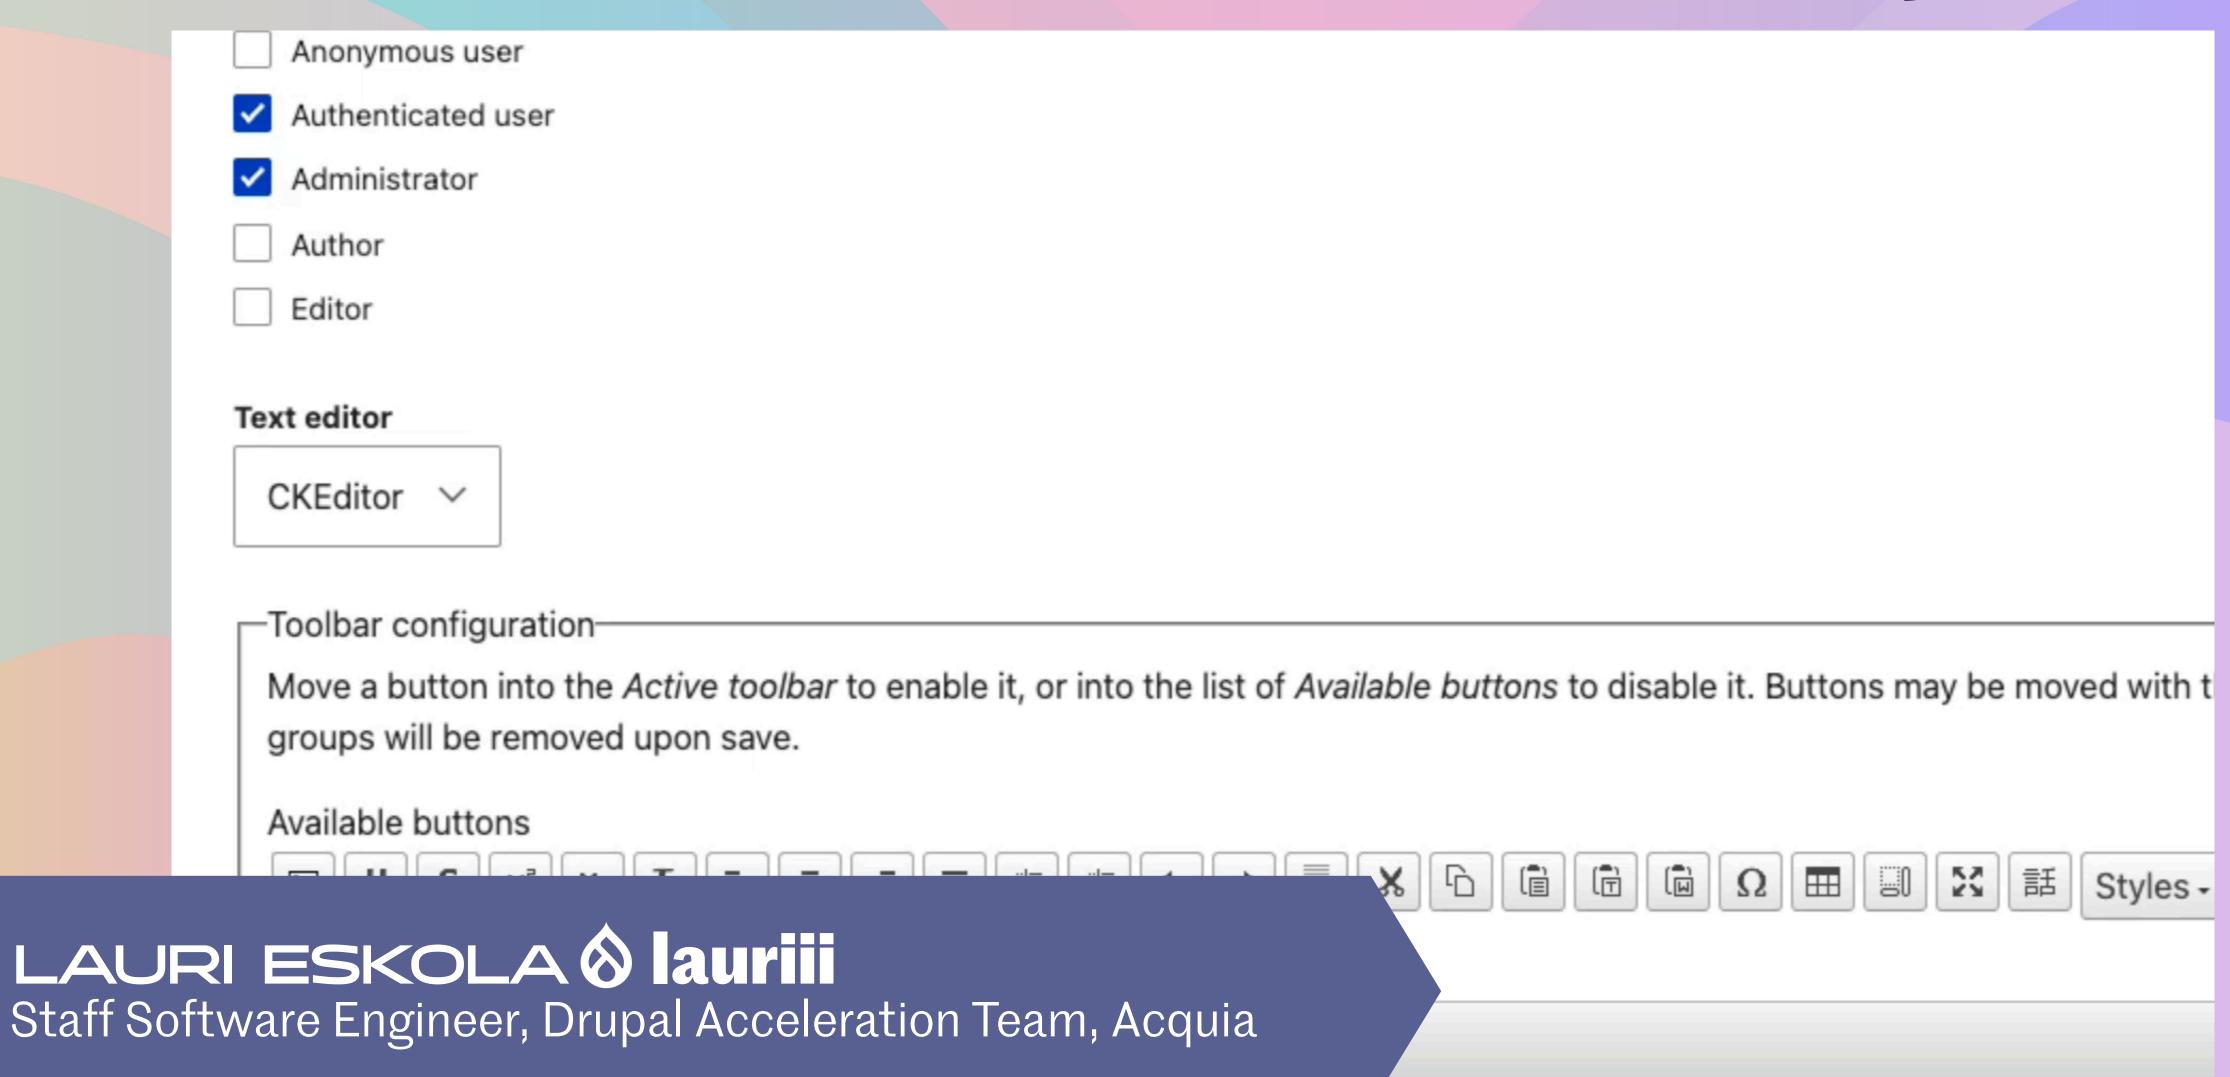

Starterkit, in alpha

Next? Make it stable and move Classy and Stable out of core

CKEditor5 makes Drupal content creation future-ready

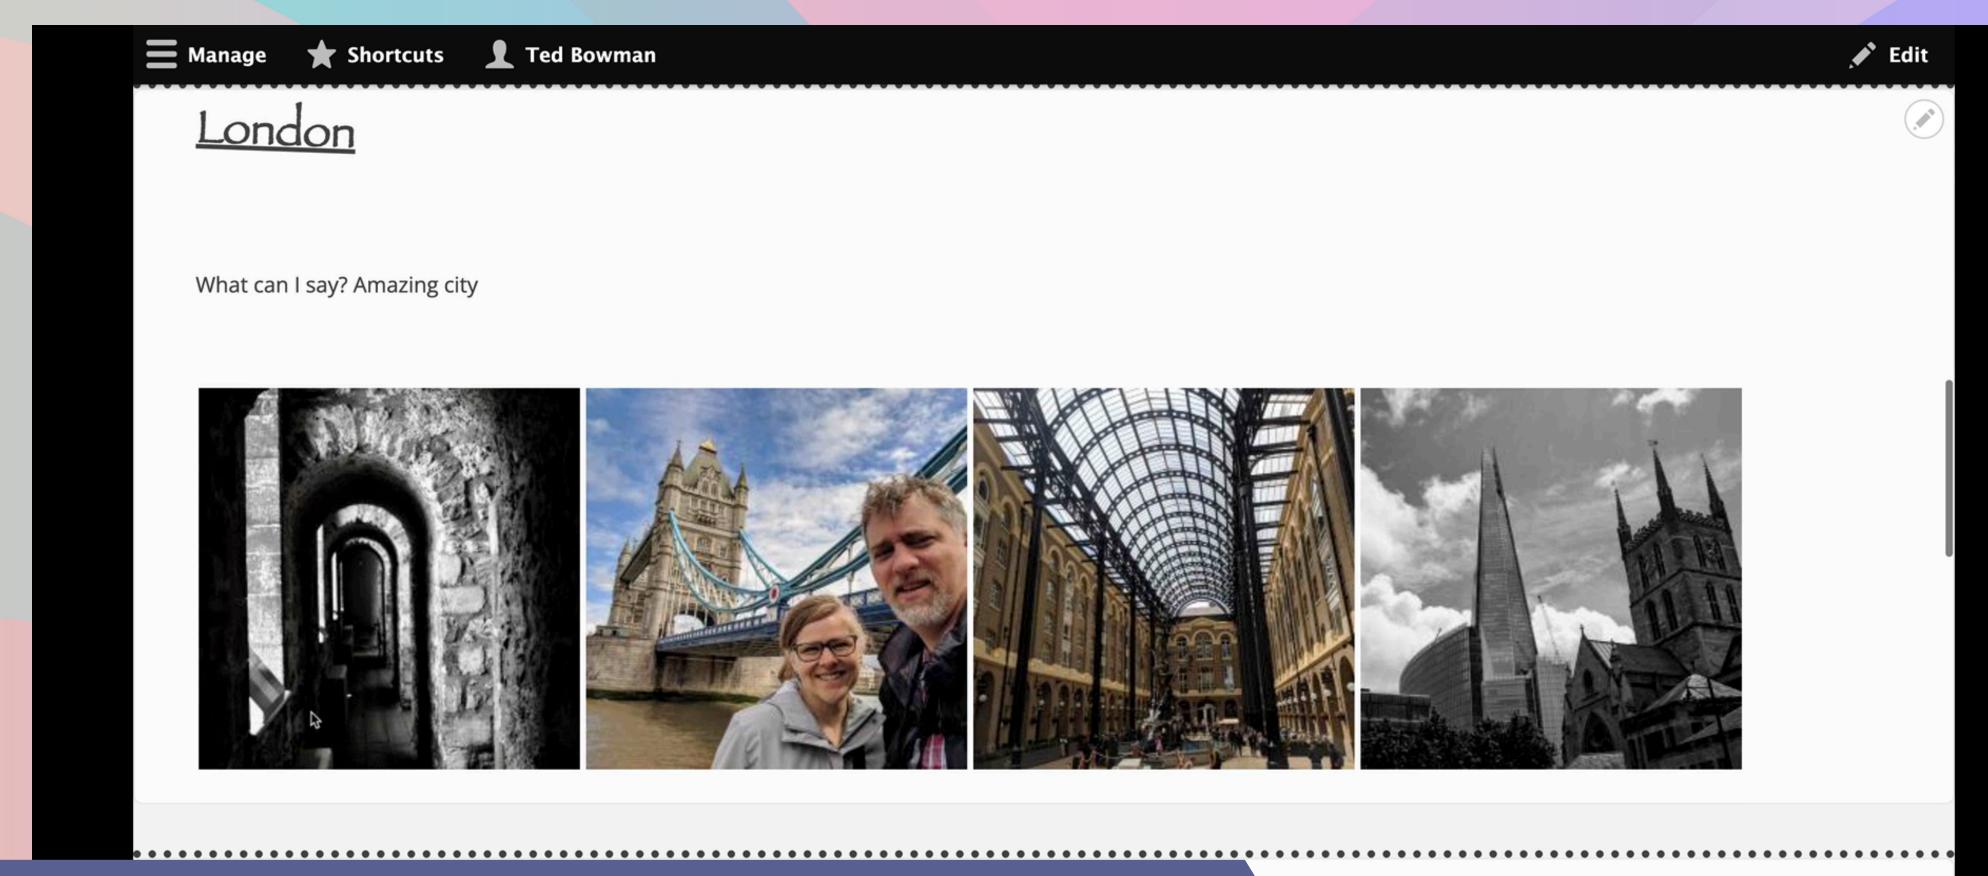

On the last Drupal Product Survey,

Automated Updates was the #1 requested feature from Site Builders

Automated updates is #1				
	Back end developers	TOP SURVEY REQUESTS	BEGINNERS	EXPERTS
		Improved API documentation		
		Replace Drupal's hook system with events		
	Designers / Front end devs	Modernize JavaScript		
		A component-based theme system		
	Site builders	Automated updates		
	Sile builders	More modules in core	*	
	Content creators	Modern administration UI		
		Easier to use page building tools		
	Callara	Dottor logicina advoir thomas		
	Sellers	Better looking admin theme

- Compatible with your Drupal installation
- 733,590 sites report using this module
- Stable releases for this project are covered by the security advisory policy.

Gin Admin Theme

By sashaeggi

What is the Gin Admin Theme?

A radically new UI layout paired with goodies like a Darkmode will give your Drupal's Admin interface a facelift. The Gin theme also includes things which are currently out of scope for Claro and/or some customisations we're experimenting with for the; we're future. Built on the foundation of Claro from one of the lead designers of Claro & Drupal Design System.

How to get started

- 1. Install this module and then activate it on the extend page
- 2. Lorem ipsum dolor sit amet, consectetur adipiscing elit.
- 3. Duis aute irure dolor in reprehenderit in voluptate velit esse
- 4. Sint occaecat cupidatat non proident, sunt in culpa qui officia

DRUPAL 11 STRATEGY Part 1 of 2

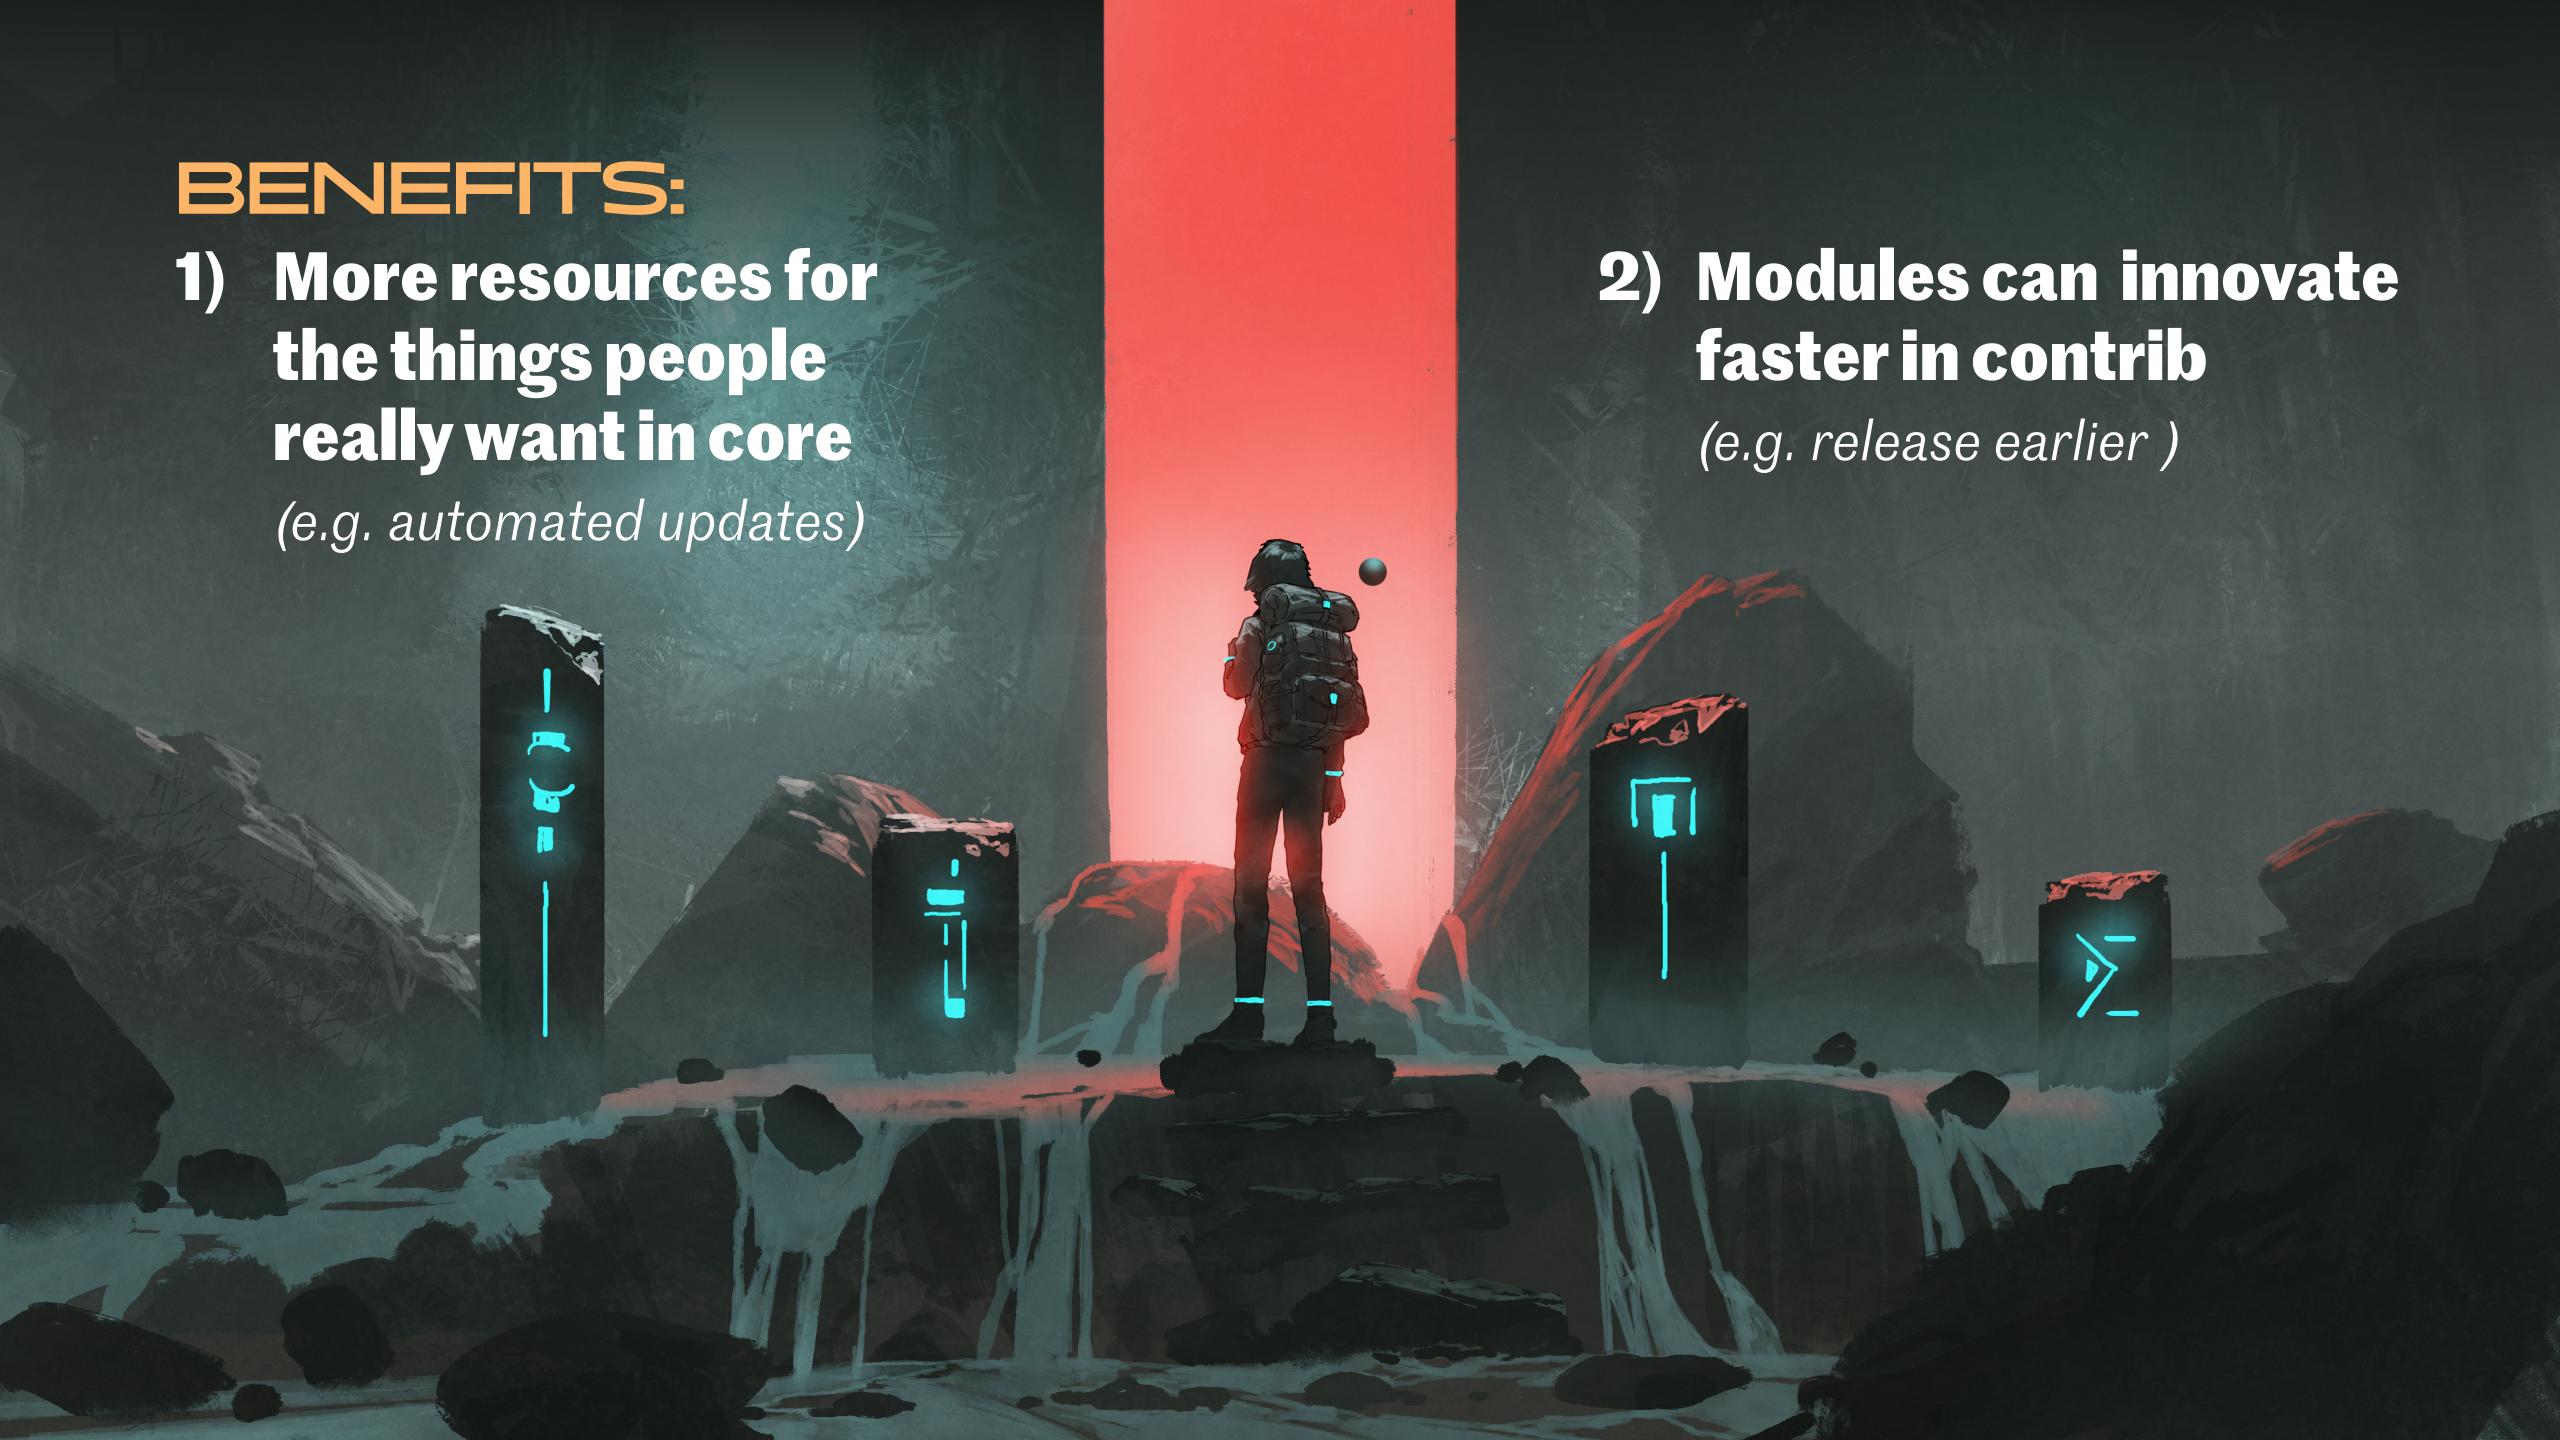

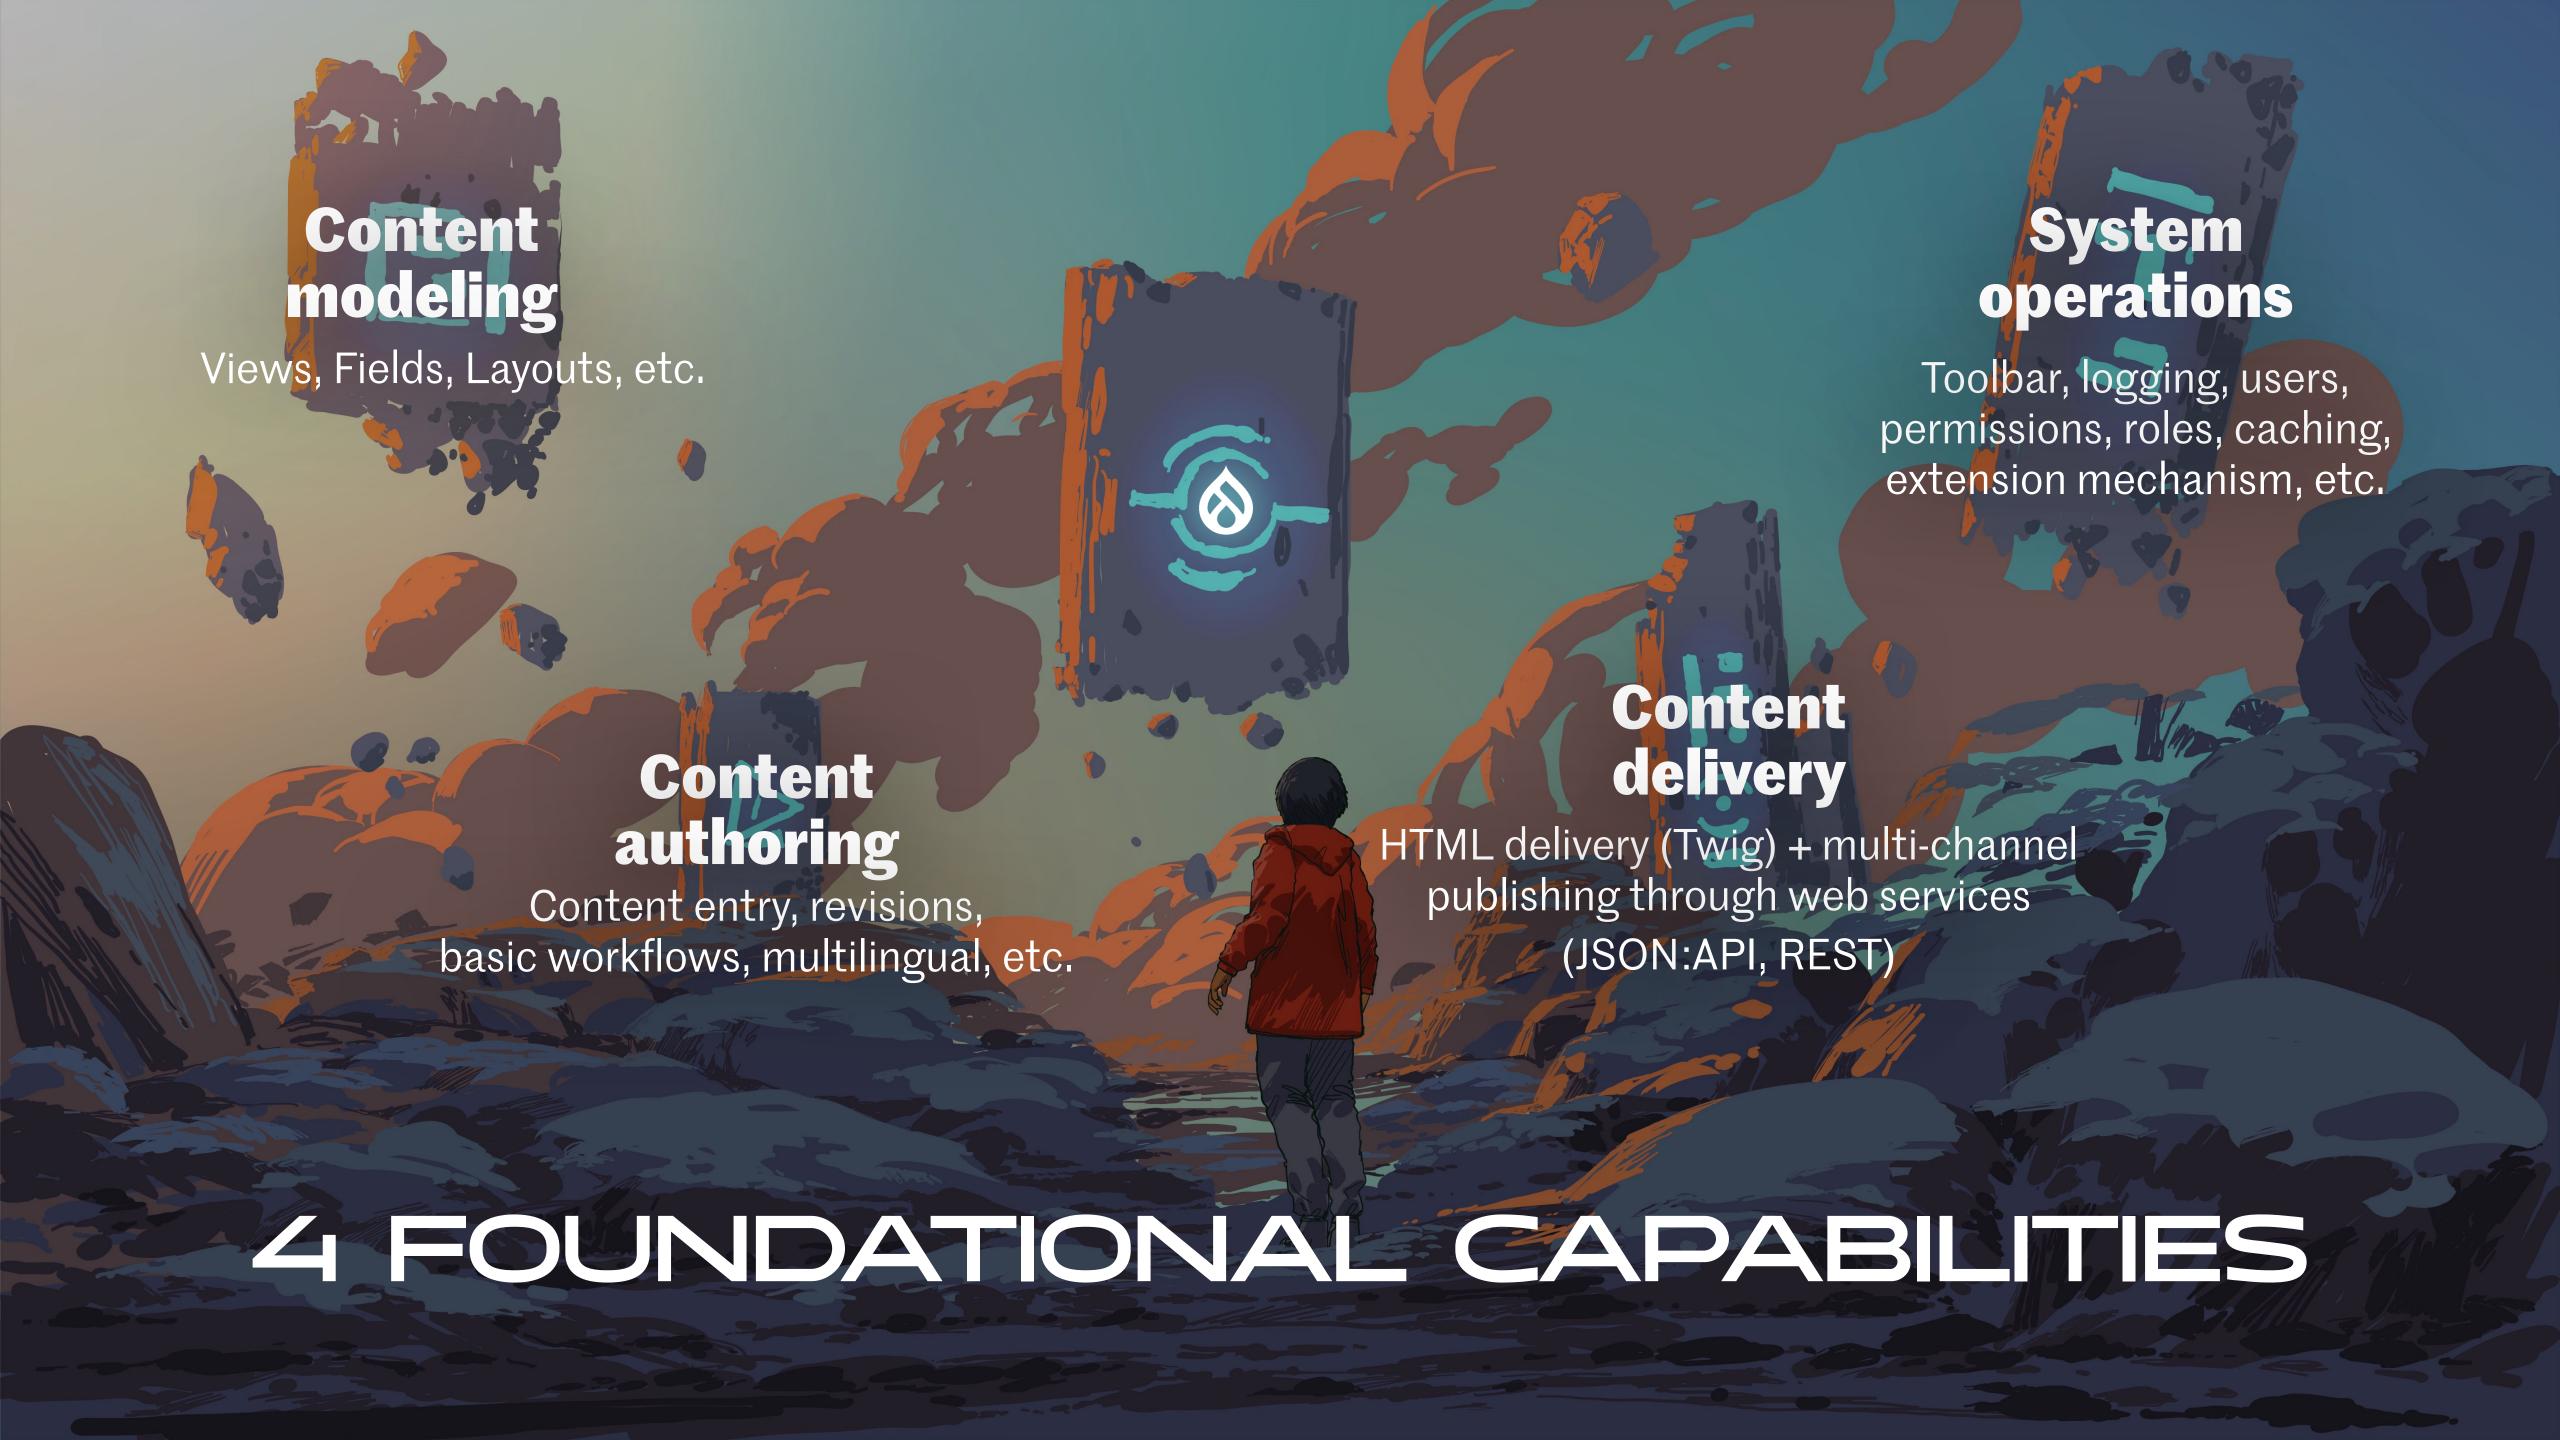

Does it fall under one of the 4 foundational capabilities?

+1 for yes, + 0 for no

Is it used by a lot of sites?

+1 for high, +0.5 for medium, +0 for low usage

Has vetted **strategic value**, determined by the committer team?

+1 for yes, + 0 for no

Is it straightforward to maintain?

+1 for yes, + 0 for no

Drupal 11's 2-year strategy:

COMPOSABLE CORE

Project Browser + Starter Templates + Automated Updates + Smaller Core

- 1. Project Browser with quality metrics stable in Core
- 2. Starter templates feature in Core and on D.o
- 3. Automated updates stable in Core
- 4. Gitlab project completion
- 5. Smaller Core via the Great Module Migration
